Getting Started: Step-by-Step Setup Guide

Step 1: Log In & Verify Your Email

- Check your inbox for the invitation email from IPOReady
- Click "Accept Invitation" and set your password
- Enable two-factor authentication for security

Step 2: Complete Your Company Profile

Navigate to **Settings > Company Profile**

- Company name and legal structure
- Your target exchange (NASDAQ, NYSE, TSX, CSE, etc.)
- Primary industry sector
- Estimated IPO timeline (helps calibrate your PACE™ score)
- Headquarters location (we support global operations)

Step 3: Set Up Your Core Team

Go to **Team > Members**

- Invite your CFO with **Finance Lead** role (manage finances, cap table, regulatory reporting)
- Invite your General Counsel with **Legal Lead** role (manage legal docs, regulatory compliance)
- Invite Board members with **Board Member** role (view-only access to sensitive items)
- Invite your CEO/Founder with **Company Admin** role (full access, can invite others)

Pro tip: Different roles see different sections. Board members don't see detailed cap table math—just approvals. Finance leads manage all numbers. You control what each person sees.

Step 4: Upload Your Cap Table

Navigate to **Cap Table > Current State**

- Download the cap table template (CSV format)
- Fill in shareholder names, share classes, quantities, grant dates, vesting schedules
- Upload the completed file
- Our system validates for consistency and flags issues

What happens next: IPOReady runs automated checks:

- Share conservation (total issued = holder quantities)
- Vesting accuracy (cliff dates, monthly vesting)
- Preference waterfall math
- Currency consistency

Step 5: Add Your Key Documents

Go to **Documents > Upload**

- Articles of Incorporation / Certificate of Formation
- Shareholder Agreement
- Option Pool Documentation
- Most recent audited financial statements (if available)
- Board meeting minutes (last 12 months)

What happens next: Our document completeness scorer automatically tracks what you have and what's missing for each phase.

Step 6: Review Your PACE™ Score

Navigate to **Dashboard > PACE™ Readiness**

Your score combines:

- **Task Completion** (40%): % of phase tasks you've finished
- **Document Maturity** (20%): Quality & recency of your documents
- **Team Readiness** (20%): CFO hired? Board full? Auditor selected?
- **Cash Runway** (10%): Months of operating cash on hand
- **Market Conditions** (10%): IPO market sentiment

You'll see:

- **Your PACE™ Score:** Current readiness (0-100)
- **Peer Percentile:** How you compare to companies targeting your exchange
- **Readiness Factors:** Which factors are helping/hurting your score
- **Predicted Timeline:** Our estimate of months to IPO based on benchmarks

- **You're in the top 65%** for your peer group
- **Our model predicts:** 14-18 months to IPO readiness (vs. 24-30 month average for your peers)
- **Your biggest opportunity:** Hiring a CFO would increase your score by +8 points

How it updates:

- Every time you complete a task: +1 to +3 points
- Every time you upload a document: +0.5 to +2 points (depends on document importance)
- Quarterly as market conditions shift: +/- up to 5 points
- When you hire key team members: +5 to +10 points

You'll receive a monthly PACE™ insight email showing what moved and why.

Cap Table Management

All your shareholding data in one place, automatically validated.

- **Waterfall analysis:** See exactly how proceeds flow to each shareholder in an IPO

FAQ: Your First Week

Q: How long until we're IPO-ready? A: It depends on your starting point. Our benchmarks show:

- Early-stage (Series A/B): 18-24 months with IPOReady
- Growth-stage (Series C/D): 12-18 months
- Late-stage (pre-IPO): 6-12 months

Your personalized PACE™ timeline appears on Day 1 of using the platform.

Q: Can we change our team's access later? A: Absolutely. You can promote, demote, or remove team members anytime. When you change a role, the person's access updates immediately. They'll see a notification.

Q: What if our cap table is really messy? A: That's normal—95% of companies have inconsistencies before their IPO. Our cap table wizard:

- Detects common issues (vesting math errors, missing signatures, inconsistent share classes)
- Flags them for you to resolve
- Provides remediation steps
- Optionally connects you with legal experts to fix structural issues

Q: Is my data secure? A: Yes. All data is encrypted in transit and at rest. We comply with SOC 2 Type II, GDPR, and PIPEDA. Your data lives in secure cloud infrastructure. Only your invited team members can access your account.

Q: What if we're not ready to go public yet? A: IPOReady is for companies that have *decided* to go public—whether in 6 months or 3 years. Your timeline is your own. The platform grows with you. Many of our customers use IPOReady to prepare for a Series D or acquisition, not just IPO.

Q: Can we export our data if we leave? A: Yes. You own your data. You can export your cap table, documents, and audit logs as CSV or PDF anytime.

Q: How do I contact support? A: Email support@ipoready.com or use the live chat in your dashboard (Growth plan + includes priority support).
